Soccer
Gaming
Boba Tea

WORK EXPERIENCE

Naborly

SOFTWARE ENGINEER

TORONTO, ON

JUL 2017 - JUN 2018

- Improved search response time for application form queries from 1-2 seconds to < 300ms by introducing Elasticsearch indexes of application forms, implemented fan-out service for Elasticsearch and MongoDB
- Built dashboard UI for customers and in-house team for tracking app status
- Reduced process time by over 50%(from 2 days to 0.5 days) of many customers by creating document reuploading feature that allowed document issues to be resolved directly on the platform
- Reduced workload of in-house team of processing documents from 3-4 days to < 1 day by implementing streamlined screening feature

Tools: React, Redux, Node, Javascript, MongoDB, Elasticsearch

PokerStars

SOFTWARE DEVELOPER INTERN

VAUGHAN, ON

AUG - DEC 2015

Test Automation Team

- Designed and implemented automated bot player generation within simulated PokerStars testing environment of each country
- Reduced manual creation time of 1-2 hours per batch to instantaneous creation and verification of many bot players, in 10+ countries

Tools: Java, Selenium

TECHNICAL PROJECTS

Metagrab

JUL 2019 - CUR

- Implemented real time ranking algorithm with pagination for user curated content based on content activity
- Designed and built UI elements to allow users to log in, view home timeline, follow games, create threads, and post comments

Artifact Deck Helper

OCT - DEC 2018

- Created iOS application that help Artifact players design and build decks on the fly

Giffy

FEB - APR 2017

- Built React application that allow users to post and share pictures mapped to their geographical location

AWARDS + RECOGNITION

- Recipient of Northern Alberta Design Challenge Award for Capstone Design Project
- 1st place in Paper Airplane Competition out of 25 teams in Freshman Year
- 3rd place in regionals VEX Robotics Competition
